WORK EXPERIENCE

Edge -Forex Pvt. Ltd
2023- Present

Web Developer

- Design and develop responsive and user-friendly frontend templates using HTML, CSS, and JavaScript, ensuring high-quality, visually appealing web experiences.
- Integrate and manage APIs, fetch data, and dynamically display it on the frontend to meet business requirements and enhance user interaction.
- Build custom WordPress websites utilizing Envato themes, adapting them to meet specific client needs and ensuring seamless integration with existing systems.
- Customize WordPress themes and plugin files to implement unique features and functionalities as per project specifications, optimizing the user experience.
- Collaborate with cross-functional teams to gather requirements, provide technical insights, and deliver high-quality solutions within deadlines.
- Perform basic SEO tasks to optimize website pages for search engines, ensuring proper indexing and improved visibility across major search engines.
- Utilize popular SEO plugins, including WP-Optimization and 10Web, to enhance on-page SEO, improve site performance, and implement best practices for search engine ranking.
- Regularly monitor and maintain the website's indexing status, troubleshooting any issues related to search engine crawling and page ranking.
